

## Default Question Block

### Children's Cancer Priority Setting Partnership Survey for Children

#### We want to know what matters to you

We want to know what children like you think is important for us to find out about having cancer, or having a brother, sister or friend who has cancer. You are the expert on what is important. We would like you to tell us what is important so that we can make things better for children like you. We want to know what you would like to know more about, and what questions you would like answered.

We want you to tell us so we know what research needs to be done. 'Research' is what we do when we want to learn more about something or find out something new. By telling us what you think, we can help make sure that research answers questions children like you have.

#### Who can take part?

You can take part if you have cancer or you have had cancer and have now finished your treatment and medicines.

You can take part if your brother, sister or friend has cancer or has had cancer and has now finished their treatment and medicines.

#### What do I need to do?

You need to tell us what matters to you. You can write this in our form on a tablet or computer. If you need help, you can ask someone to write for you. You can write down questions you would like to know the answer to. If you don't have a question, you can write about what is important to you in your own words.

#### What will happen to what I tell you?

We will make a big list of everyone's questions. Then, we will ask more children which questions on the list are important to them too. We will also ask families and people who look after children, like doctors and nurses, which questions are important to them. At the end of this project, we will have a list of the 10 questions that are most important to children, families and people who look after children. We will tell people about the 10 questions and all the other questions too so they know how to make things better for children like you.

#### Who will know what I tell you?

We will make sure that nobody can tell which things you told us. We will not ask for your name.

#### Who is doing this project?

This project is called the 'Children's Cancer Priority Setting Partnership'. You can read more about it

and see who is involved here: <https://www.cclg.org.uk/Childrens-Cancer-PSP>. It is organised by the Children's Cancer and Leukaemia Group (CCLG) and Little Princess Trust, which are charities that work with children who have cancer and their families.

If you want to get in touch with us please ask your parent or carer to email [ChildCancerPSP@surrey.ac.uk](mailto:ChildCancerPSP@surrey.ac.uk)

## Block 2

### What matters to you?

We would like to know what the most important things to you are so that we can make things better for children like you.

It's up to you what you want to write about. You can write about things like:

Going to or visiting hospital

Having medicines and treatment

Talking with friends about cancer

How people look after you

Feeling poorly

Going to school

How you feel

Or anything else that matters to you.

You can write as many things as you want. We are interested in what matters to you so there are no right or wrong answers. You can write questions or just write about what is important to you in your own words.
