

# P R I O R I T I S I N G H Y P E R A C U S I S

**HELP MAKE A REAL DIFFERENCE  
FOR ADULTS AND CHILDREN LIVING WITH HYPERACUSIS**

To complete our survey or for more information visit:  
<http://www.hearing.nihr.ac.uk/research/hyperacusis-PSP>

## Sensitive to sound?

Hyperacusis is a hearing disorder where people experience everyday sounds as uncomfortable or painfully loud. Despite many people experiencing this, much is unknown and likely misunderstood.

### What questions should researchers be asking about:

- Cause
- Assessment
- Management
- Prevention
- care and support
- healthcare service

### What research should funders be supporting?

**WE NEED YOU TO COMPLETE A SURVEY TELLING US WHAT YOU THINK ARE THE UNANSWERED QUESTIONS ABOUT HYPERACUSIS.**

These questions will be used to help guide future hyperacusis research.
