

# Do you have unanswered questions about miscarriage?

**Miscarriage**  
PRIORITY SETTING PARTNERSHIP

## Have your say on research into miscarriage!

The **Miscarriage Priority Setting Partnership** for the first time brings together women who have experienced miscarriage, others affected by miscarriage and clinicians who care for them. Together we will develop priorities for future research.

### How this will happen...

### What will happen to the results?

The top ten research questions will be used to inform future clinical research for submission to research funding bodies. We will also publish and publicise the results. All uncertainties will be added to the **UK Database of Uncertainties about the Effects of Treatments (DUETs)**.

**How do I get more information and take part in the survey?**
